A Third Grade Series for Creating a Powerful Mathematics Classroom

Putting It All Together

Curriculum, standards, assessment, instructional strategies, math practices: How do we put it all together in a way that makes the mathematics come alive for your students?

These sessions are structured to address your questions when you need answers most.

- How do you use your curriculum (district adopted or created)?
- How do you develop students with a deep understanding of mathematics?
- How do you implement powerful strategies to support all learners?
- How do you prepare students for the rigor of the SBAC assessments?

This four-day series is designed to provide year-long support and opportunities to collaborate with other 3rd grade teachers to empower student math learning.

Attend the entire series or select individual sessions.

Session 1: Place Value and Whole Number Operations (NBT and OA) - September 11, 2019

Session 2: Problem Solving, Area, and Perimeter (OA and MD) - October 22, 2019

Session 3: Fractions (NF) - February 6, 2020

Session 4: Geometry (G) and Measurement and Data (MD) - March 10, 2020
